EXPERIENCE

2023 - Present - UX/UI Designer | APIIZ- The Mysterious App Project

A venture in the field of billboard advertising, my responsibilities involve conducting research, collaborating with various teams, using design tools like Figma, and taking the project from initial characterization to final UX/UI design while ensuring adherence to quality standards and effective communication with stakeholders.

2021- 2022 - Graphic Designer | Benda Magnetic - B2B & B2C company

Create impactful visual assets such as visual branding and identity design, social media, campaign design, website graphics, print design and others) for various platforms and well-known brands, such as Vivo, Aqua Marina, Razer, Xbox, and more.
